# The luminaire manufacturer

The entire manufacturing process for luminaires, in particular fabric shades, designer lighting, and high-quality technical lighting, is carried out in our own production facilities.

Plastic materials, metal, PVC films, and fabric are used in the manufacture of the luminaires.

Since we manufacture the majority of our products by hand, our customers benefit from a high degree of flexibility and quality.

Wire processing with the CNC wire bending machine enables the production of any shape with maximum precision.

Further processing such as welding, straightening, and grinding are also carried out in-house.

To maintain a long-term quality standard, the wire frames are powder-coated, with the color freely selectable.

We manufacture luminares using professional machinery and craftsmanship according to customer requirements.

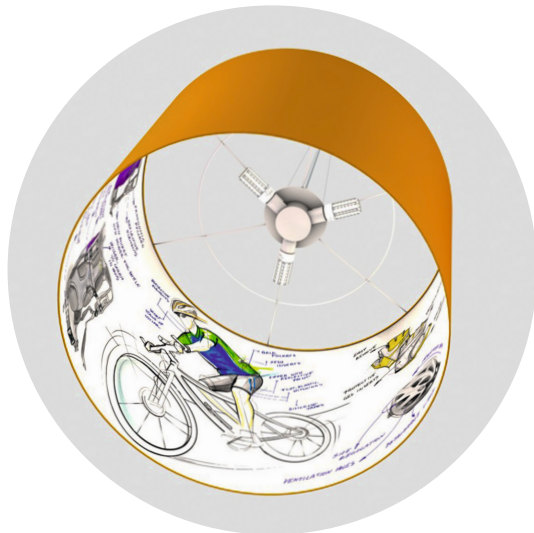

With modern high-tech light sources, we achieve outstanding illumination combined with high energy savings.

Our high-quality lights are always modern and represent an enhancing accessory for your premises.

Manufacture of luminaires with printed motifs.

Fabrics, films, and sheet materials such as plastic, metal, or glass can be printed using UV digital printing with a white option.

As this is also handled in-house, we can ensure the smooth production of exclusive products.

## Fabric lamps

---

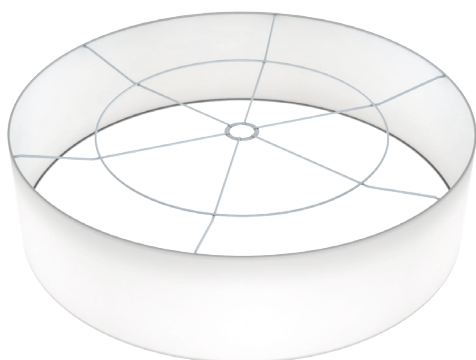

Fabric Lampshades create a cozy atmosphere and offer a wide range of uses. Thanks to a wide range of colors and flexible size options, you can let your imagination run wild.

---

Since all lights in our production are manufactured specifically for you, the standard range does not set any limits. Rather, it forms the basis on which we also manufacture completely customized lights.

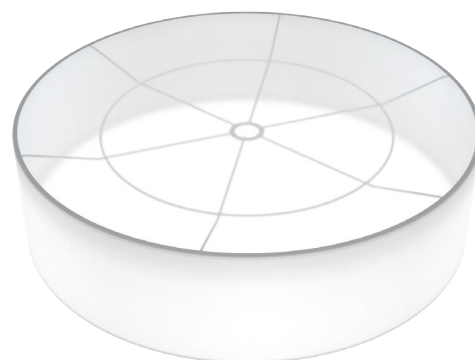

---

## Fabric lamps | Base frames

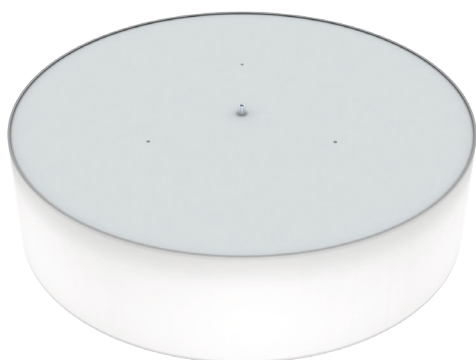

**Classic wire frame**

For use as a pendant or ceiling light with E27 socket modules or as a Lampshade for floor and table lamps

**Classic wire frame with closed fly net**

For use as a pendant or ceiling light with E27 socket modules

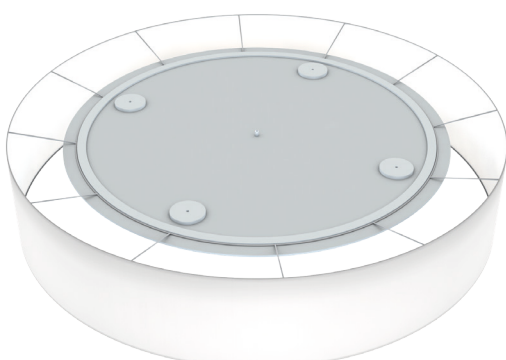

**Support plate for LED circuit boards**

For use as a pendant light with LED modules  
For sizes 200-1180 mm

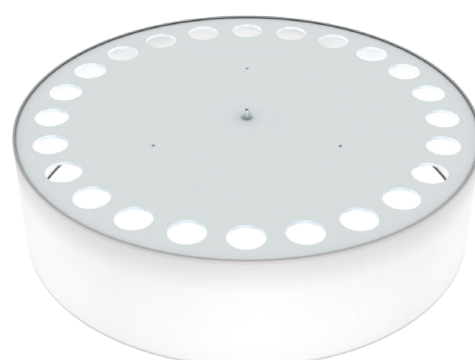

**Support plate for LED circuit boards**

For use as ceiling lights with LED modules  
For sizes 200-1180 mm

**Support plate with wire frame**

for sizes 1300-1500 mm

**Additional option for carrier plate**

Cutouts for indirect lighting  
Only available for sizes from 300 to 1180 mm

## E27-Socket

An E27 socket with two screw rings for mounting on the wire frame with E27 holder

## 3E27-Socket horizontal

Three E27 sockets arranged horizontally in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø180 x 100 mm

## 4E27-Socket horizontal

Four E27 sockets arranged horizontally in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø180 x 100 mm

## 5E27-Socket horizontal

Five E27 sockets arranged horizontally in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø180 x 100 mm

## 6E27-Socket horizontal

Six E27 sockets arranged horizontally in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø180 x 100 mm

## 8E27-Socket horizontal

Eight E27 sockets arranged horizontally in a circle. Six sockets facing outwards and two facing inwards. Can be mounted on the wire frame using clips.

**Dimensions:** Ø580 x 55 mm

## 12E27-Socket horizontal

Twelve E27 sockets arranged horizontally in a circle. Eight sockets facing outwards and four facing inwards. Can be mounted on the wire frame using clips.

**Dimensions:** Ø880 x 55 mm

### 3E27-Socket vertically

Three E27 sockets arranged vertically in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø300 x 100 mm

### 4E27-Socket vertically

Four E27 sockets arranged vertically in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø300 x 100 mm

### 5E27-Socket vertically

Five E27 sockets arranged vertically in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

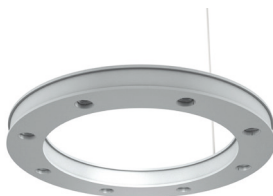

**Dimensions:** Ø350 x 100 mm

### 6E27-Socket vertically

Six E27 sockets arranged vertically in a circle. Can be mounted on the wire frame with E27 holder using a screw ring.

**Dimensions:** Ø350 x 100 mm

### 8E27-Socket vertically

Eight E27 sockets arranged vertically in a circle. Can be mounted on the wire frame using tabs.

**Dimensions:** Ø580 x 55 mm

### 12E27-Socket vertically

Twelve E27 sockets arranged vertically in a circle. Eight sockets on the outside and four sockets on the inside. Can be mounted on the wire frame with clips.

**Dimensions:** Ø780 x 55 mm

### 2E27-Socket linear

Two E27 sockets arranged vertically in series, mountable on the wire frame with E27 holder using a screw ring.

**Dimensions:** 300 x 80 mm, height 100 mm

# Fabric lamps | Electric

## 3E27-socket linear

Three E27 sockets arranged vertically in a row, mountable on the wire frame with an E27 holder using a screw ring.

**Dimensions:** 500 x 80 mm, height 100 mm

## 4E27-socket linear

Four E27 sockets arranged vertically in a row, mountable on the wire frame with an E27 holder using a screw ring.

**Dimensions:** 750 x 80 mm, height 100 mm

## 5E27-socket linear

Five E27 sockets arranged vertically in a row, mountable on the wire frame with an E27 holder using a screw ring.

**Dimensions:** 1000 x 80 mm, height 100 mm

## LED-Modul 20-45

LED circuit board on white carrier plate with 27W power and 3,060 lumens. Available in warm white (3000K) and neutral white (4000K) light colors. Optionally dimmable via DALI or SmartControl (Casambi). Suitable for fabric lamps from 200 to 450 mm.

## LED-Modul 50-78

LED circuit board on white carrier plate with 34W power and 4,000 lumens. Available in warm white (3000K) and neutral white (4000K) light colors. Optionally dimmable via DALI or SmartControl (Casambi). Suitable for fabric lights from 500 to 780 mm.

## LED-Modul 90-118

Three LED boards on a white carrier plate with 102W power and 12,000 lumens. Available in warm white (3000K) and neutral white (4000K) light colors. Optionally dimmable via DALI or SmartControl (Casambi). Suitable for fabric luminaires from 900 to 1180 mm.

## LED-Modul 130-150

Four LED boards on a white carrier plate with 136W power and 16,000 lumens. Available in warm white (3000K) and neutral white (4000K) light colors. Optionally dimmable via DALI or SmartControl (Casambi). Suitable for fabric luminaires from 1300 to 1500 mm.

# Floor lamps

## Floor lamps

---

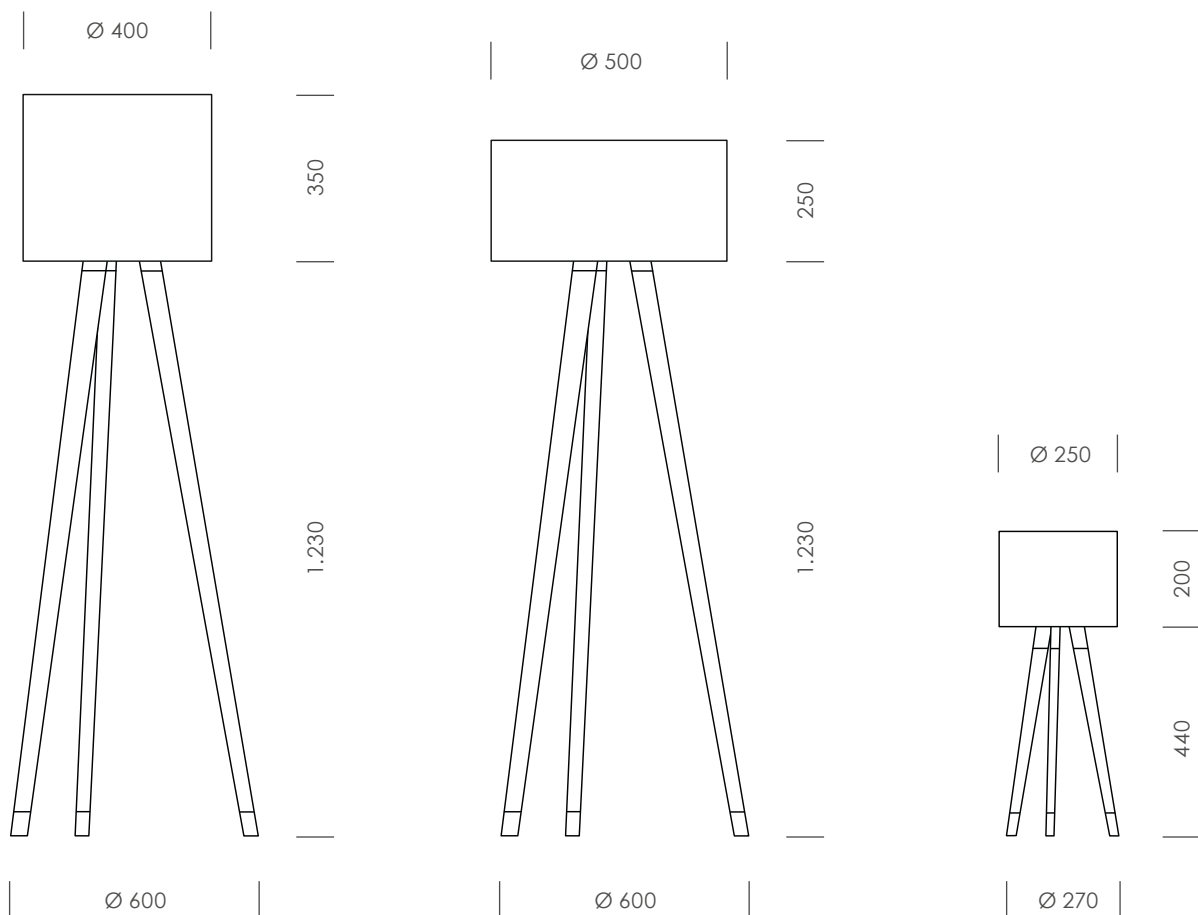

A floor lamp transcends the boundaries of practical lighting to become a home accessory that you wouldn't want to be without. Light and design form a perfect symbiosis.

---

The Stella floor lamp, modeled after a tripod, automatically creates a skillful focal point with its wooden legs and shade of your choice.

# LED Ring luminaires

## LED-Ring luminaires

---

Elegant and enhancing, Ring luminaires are particularly suitable for large spaces and are also flexible in use. Their lightweight construction allows for a floating look when suspended from cables. Thanks to the ring-shaped arrangement of the LEDs, virtually shadow-free illumination is achieved.

---

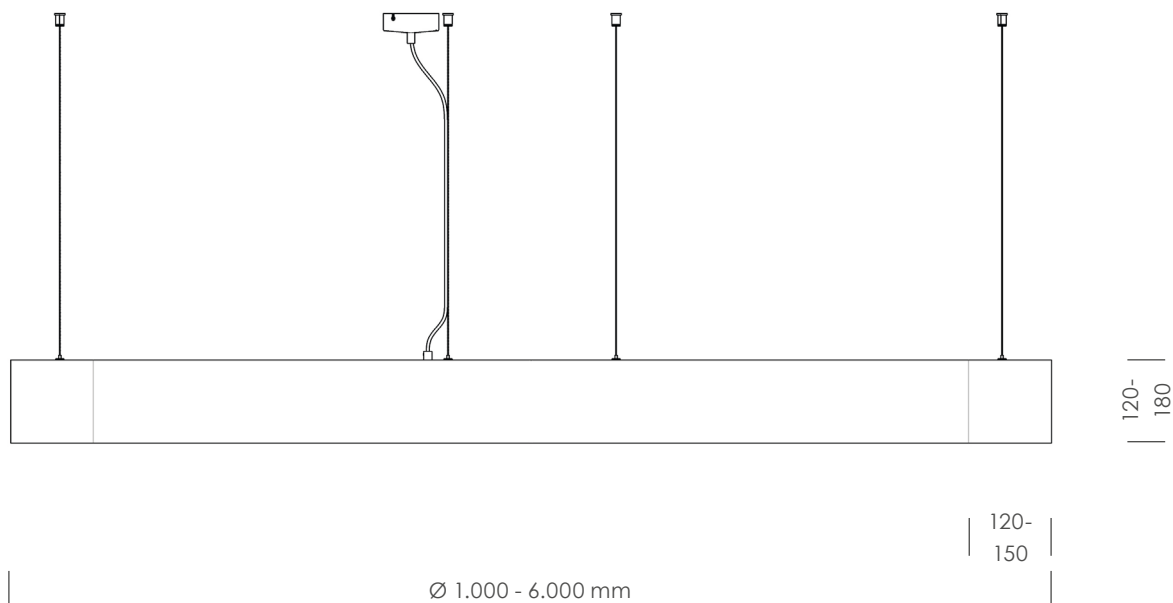

Since all of the lights in our production are manufactured specifically and exclusively for your needs, the design possibilities are virtually limitless. This range not only forms the basis, but also the starting point for creating individually tailored lights according to your personal ideas.
